

General Grading Rubric for Online Midterms

Each section received a different problem, which is included below. Submissions were all graded according to the same rubric, and the section averages are all going to be curved up to the highest section average to adjust for varying degrees of difficulty.

Out of a possible 10 points:

- +2 -- used recursion
- +2 -- base case
 - +1 stops at the right time
 - +1 does the right thing when it stops
- +6 -- recursive case
 - +2 correct branching factor
 - +2 correct move / turns
 - +2 on the right conceptual path
